(54) Title: TRANSGENIC ANIMAL MODELS OF HRV WITH HUMAN ICAM-1 SEQUENCES

Map of pHuMolCAM-1:
(Human- Mouse chimeric ICAM1 cDNA in pcDNA3.1+)

(57) Abstract: A transgenic non-human animal
whose genome comprises a polynucleotide encoding
human ICAM-1 domains D1 and D2 and preferably
encoding human ICAM-1 domains D1 and D2
and host non-human ICAM-1 domains D3, D4 and
D5. Methods for the production of such transgenic
animals, screening methods using such transgenic
animals, associated transgenes, constructs, vectors,
and cells are disclosed. The transgenic non-human
animal is a suitable model for studying human
rhinovirus infection.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/EP 03/07939

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☒ Claims Nos.: 29
because they relate to subject matter not required to be searched by this Authority, namely:
As far as claim 29 is directed to a method of treatment of the animal body, the search has been carried out and based on the alleged effects of the compound/composition.
2. ☐ Claims Nos.:
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.
